

## New Corporate Brochure of the Arntz Optibelt Group **Passion Meets Precision**

Optibelt recently published a new updated corporate brochure – a collection of all important and interesting information about the company on 44 pages.

Heinz Wilkening, chairman of the management board, therefore emphasizes in his preface:

“We make sure that machines all around the world are steadily kept in motion. Being the leading manufacturer of technologically superior drive belts with a dense network of sales companies / sales partners, we are aware of our responsibility for this challenge and our loyalty towards our customers.”

In the specific chapters and topics of the brochure, the reader is informed about all important aspects of the Arntz Optibelt Group. Those interested come to know everything worth knowing: from A as in automotive timing belts over B as in belts drives to C as in customer satisfaction. The history of the company is depicted, and product development, milestones of development and Optibelt drive solutions for every possible application are presented.

Product range, acquisition and marketing with surplus value are further catchwords introduced in the image brochure. The reader learns about Optibelt's best practices and formulas for success like advanced training / further education, highest quality standards from production to delivery and sustainable economic activity – all described from the company's point of view.

The best products are of little value if they are not available in due time at the right place. Optibelt makes sure that the product quality also has positive bearings on the logistics. This is only manageable

with premium equipment and a tirelessly committed team. Therefore, Optibelt products can be found all over the world where passion meets precision.
