

## Optibelt Web-to-Print Service

Kick-off: May 1<sup>st</sup> 2010, via [www.optibelt.com](http://www.optibelt.com)

Starting May 1<sup>st</sup>, Optibelt offers its professional trading partners a special service for the design of customised price lists. Customers can use this order service for price lists with their individual logo and address online.

Via the Internet, on [www.optibelt.com](http://www.optibelt.com), section: Service/Web-to-print, customers are connected to the user interface. There, they can use a fill-in form to give all the necessary information and data.

After placing the order, the customer will receive a confirmation email with the drafted back page of the price list, including his logo and address. With a single click (the link will be included in the email), the customer can approve the layout at any time. He will then receive the ordered quantity of customised price lists after a delivery time of 28 days.

This is an extra online service which allows customers to order price lists quickly, easily and flexibly at Optibelt online.
