

## **PRESS RELEASE**

### **Arntz Optibelt Group presents innovations at HANNOVER MESSE 2023**

**Höxter, 17 April 2023. The focus at stand F08 in hall 5 is all about the exhibition theme “Innovative Solutions by Optibelt”.**

At HANNOVER MESSE 2023, the Arntz Optibelt Group will be showcasing its latest innovations and products. Taking “Innovative Solutions by Optibelt” as its theme, the company will be presenting customised solutions and innovations from the areas of power transmission, material handling and elastomer solutions.

#### **Optibelt products in use**

“The Optibelt Group continuously seeks to develop its products and customer-specific solutions further,” says Managing Director Reinhold Mühlbeyer.

This is evident from trade fair highlights which include the electric motorcycle by Savic Motorcycles from Melbourne, Australia, and Ecotech Italia’s high grass mower – which will be shown in use by the Arntz Optibelt corporate group from its V-belt & timing belt product areas.

When it comes to flexible drive solutions and conveying systems, Optibelt Material Handling GmbH are the experts and will be showing a special conveyor belt module with belts based on the patented optibelt ATC-SYSTEM at the trade fair stand.

#### **Innovations and new products**

Subsidiary Tecnam GmbH will be exhibiting its wide range of couplings as well as an electric motor with a pulley geared to heavy duty drives. This striking exhibit is driven by the latest product innovation from Optibelt, the optibelt BLUE POWER 2, a high performance wedge belt and the world’s first single wrapped V-belt made of EPDM.

## **The HANNOVER MESSE**

HANNOVER MESSE – the world's leading trade fair for industry – will be taking place from 17 to 21 April 2023. At the exhibition centre in Hanover, this major platform for key technologies and innovations brings together all types of technologies for industrial transformation. For Optibelt, too, the HMI is a highlight which attracts trade visitors and customers from all over the world.

### **About Optibelt**

The Arntz Optibelt Group is one of the leading global manufacturers of high-performance drive belts and develops sophisticated drive solutions for use in mechanical engineering, the automotive industry, agricultural machinery, household appliances and the medical sector. The family-run company controls eight production sites in six countries from its headquarters in Höxter and maintains its own logistics and sales centres in Europe, North and South America, as well as in Southeast Asia and New Zealand. Worldwide, more than 2300 employees provide the best possible service, excellent customer proximity and the highest quality and safety standards.
