

SUCCESS STORY

RED POWER

DRIVE SPECIFICATIONS

INDUSTRY

Lawn & Garden

APPLICATION

Leaf Blower

COMPANY PROFILE

Manufacturer of debris and leaf blowers for many industries such as golf courses, farms, airports and commercial properties.

PROBLEM

The banded v-belt was overheating and splitting which caused the end customers to have machines down in the field and the manufacturer to have costly warranty claims.

SOLUTION

Optibelt RED POWER

RESULTS

RED POWER v-belts have shown improvements in:

- S=C Plus length tolerances meant that single belts could be used in the application in place of banded belts.
- Works well with backside idlers.
- Reduced friction and heat build-up.
- No re-tensioning maintenance.
- Extended belt life reduced warranty claims,
