

SUCCESS STORY

SPECIAL CONSTRUCTION (KB)

DRIVE SPECIFICATIONS

- V-belt drive with special construction 4/8V2650

INDUSTRY

Mining & Aggregate

APPLICATION

Mining Shovel

COMPANY PROFILE

Mining Company

PROBLEM

Reliability department was dissatisfied with the belt life and low hour snaps they were seeing on these high shock load and clutching drives.

SOLUTION

Special Construction Banded V-Belts 4/8V2650, Qty: 2

RESULTS

Through past successes with other products at this facility, Optibelt was asked to come in and help solve this problem as well.

Optibelt Special Construction v-belts have shown improvements in:

- Increased belt life by over 50%.
- Special low friction cover fabric with aramid cords was better able to handle high shock loads and clutching application.
